### Support We Offer Our Players

- Full, experienced, coaching staff
- Full training staff to assist in injury prevention and treatment
- Year-round strength and conditioning training
- Team Chaplain to provide emotional and spiritual support
- Community involvement opportunities

## *Our Mission*

Is to provide an opportunity for our young men to grow in an environment that teaches discipline, perseverance, accountability, and cooperation through a football experience that is unique in Canada. Over the decades, thousands of young men have developed strong camaraderie and lifelong friends by participating in a highly competitive environment at a national level. That development has helped several former Wildcats to play football at the CIS and CFL level, including past Grey Cup Champions.

We are very proud of all Wildcats, both current and alumni who are making significant contributions, not only to football at all levels in Canada, but all-over North America as good citizens of their communities. We take seriously our commitment to our community. The Wildcats have been recognized as leaders in the entire Canadian Junior Football League for our community service.

Operating a junior football team would not be possible without the generous support of our sponsors throughout the community. We are very grateful for all contributions that help our team compete on the field and continue to win off of it.
